LE NGUYEN PHUC KHANG

INFORMATION TECHNOLOGIES

About Me

I am a student majoring in Information Technology at the University of Greenwich in Da Nang. Over time, I have some knowledge of the discipline as well as the techniques to build a website system with mainly Front-End technology. I always want to improve and contribute so I want to devote more to my work

Front - End Link: https://github.com/lenguyenphuckhang2001/COMP1640-FE

Back - End Link: https://github.com/lenguyenphuckhang2001/COMP1640-BE

Technically

- ReactJS
- Express
- NodeJs
- MongoDB
- Axios

Tools

- Jira
- Postman
- Draw.io

Experience

ST Software (July 2022 - November 2022)

Internship

I used to be an intern at ST Software company with the desire to practice for OJT certification for the school. I have been working on a project using ReactJS for the project and received new knowledge from other mentors. I did 2 projects there and I also picked up a lot of skills learned there.

Education

University of Greenwich (Danang Campus)

Software Engineer
Expect graduation: Jan, 2024
